

# Crimes against Humanity: COVID Class Action Lawsuits Incoming

Dear Pia,

Dr Reiner Fuellmich, a lawyer who's been a member of the bar in both Germany and California for 26 years and whose English is that of a native speaker discusses the findings of the International Corona Investigative Committee that was formed on July 10, 2020 by lawyers, doctors, and scientists.

This group originally set out to determine: 1) How dangerous is the virus? 2) What is the significance of a positive test? 3) What collateral damage has been caused by the corona measures in regards to the world's health and economy?

**They have jointly reached the conclusion that COVID-19 may be the greatest crime against humanity in history.**

Dr Fuellmich has apparently litigated with success against Deutsche Bank and Volkswagen and he lays out a legal case of crimes against humanity for enforcing lockdowns based on the fraudulent use of PCR test results.

He says the COVID-19 measures imposed, such as social distancing, wearing a mask, lockdown and quarantine are designed to "make people panic so that they believe without asking questions that their lives are in danger, so that in the end, the pharmaceutical and tech industries can generate huge profits from the sale of PCR tests, antigen and antibody tests and vaccines, as well as the harvesting of our genetic fingerprint."

**However, Fuellmich says, "The allegedly new and highly-dangerous coronavirus has not caused any excess mortality anywhere in the world and certainly not here, in Germany but the anti-corona measures, whose only bases are the PCR test**

**results...have, in the meantime caused the loss of innumerable human lives and have destroyed the economic existence of countless companies and individuals worldwide...**

"In Australia, for example, people are thrown into prison if they do not wear a mask or do not wear it properly, as deemed by the authorities. In the Philippines, people who do not wear a mask or do not wear it properly...are getting shot in the head...

"If the PCR tests had not been used as a diagnostic tool for corona infections, there would not be a 'pandemic' and there would be no lockdowns but everything would have been perceived as just a medium or light wave of influenza...

"As a result of the deliberate panic-mongering and the corona measures enabled by this panic, democracy is in great danger of being replaced by fascist totalitarian models, as I already mentioned above in Australia...

**"As more and more independent studies and expert statements show, under the rules of Civil Tort law, all those who have been harmed by these PCR test-induced lockdowns are entitled to receive full compensation for their losses."**

Dr Fuellmich describes the detailed paper written by Stephen Kohn, an official at Germany's Department of the Interior, who is responsible for risk assessment and the protection of the population against risks was leaked recently, called the [False Alarm Paper](#). This paper comes to the conclusion that there was and is no sufficient evidence for serious health risks for the population, as claimed by German health authorities and the WHO.

**Kohn concludes that, due to the preponderance of evidence, the government will be held responsible for the damages it inflicted upon the population.**

Dr Fuellmich says the crimes committed by various health authorities and the WHO must be legally qualified as actual crimes against humanity, as defined in Section 7 of the International Criminal Code

and he suggests that the path forward to compensatory damages and to political consequences is through the Class Action lawsuit.

Were the people of the world to succeed in such cases, the WHO and all government entities responsible for enforcing this COVID fraud and crimes against humanity could be bankrupted and forced to disband, in a backfire of unimaginably epic proportions.
